

This Placement Guide is a handy reference for you to find out about many placements at a glance. You can quickly locate agencies in a specific League Issue Area within our Community Model. The guide may help you find a placement that will work with your schedule. The Placement Guide shows which placements can be fulfilled during the day, evening, or weekend, and it shows if work is expected to be concentrated during a certain part of the year. The guide identifies placements that may take well over 40 hours—selecting these placements means that you are expecting to fulfill the job to completion. The Group or Individual column may guide you to the type of volunteer experience you wish to have—either working with a group or individually. Please refer to the Placement Brochure for additional information, placement opportunities, and the League contact and phone number. If you have further questions, please feel free to e-mail SaraBriggs@aol.com or call Sara Briggs at 771-7719.
